To whom it may concern,

I write to give my strong recommendation for Christina Lu.

Christina worked as both the creative lead and also primary “do-er” on all animations for our original video series. Her assets and templates still live and thrive in our YouTube channel today, making it practically her motion reel.

Her success on video led her to take a primary role in expanding our visual brand through branded content, social media and live events.

Christina is a complete professional, but she also knows how to keep things fun, which is important for us as we are constantly trying to gamify our products. Collaborating with Christina is always enjoyable.

Finally, Christina is willing to put in the hours required to execute large time sensitive projects quickly when necessary. She is a great “team player.”

Christina was very effective at Genius and I wholeheartedly recommend her for any endeavor.

Sincerely,
Tom Lehman
